- **Communication:** Proficient in English.
- **Teamwork:** Have the capability to manage the team.
- **Time Management** and ability to grasp new skills quickly.

## COURSES

---

- Successfully completed DevOps course in <https://risenshinetechnologies.com/> on April 20th, 2023.

## PROJECTS

---

- Done a project on **Secure data sharing in cloud computing using Revocable – Storage Identity–Based Encryption.**

**SUMMARY:** My project is about non-revoked users accessing the essential keys. The existing solution is not scalable, since it requires the key authority to perform linear work in the number of non-revoked users. In addition, a secure channel is essential for the key authority and non-revoked users to transmit new keys.

- Deploying a **Static Website Using S3 Bucket and CloudFront in AWS.**
